

The FCC should DEFINITELY LIMIT the amount of media outlets one corporation can own. Democracy depends on a diverse spectrum of independent media. Allowing a single company (ie Clear Channel) to own a significant percentage of a media market compromises the free, independent, diverse reporting we need if we are to survive as a democracy.

I am in favor of the FCC making stricter, not more lenient, regulations about how much media a single company can own. This is crucial to our survival as a democratic nation!!!!
